

K-Love serves the community a commercial-free source of inspiration and encouragement. Since they are listener supported, they can put the needs of the listeners first, and do not have to base programming on what sponsors want. They also don't have to worry about being popular to make money. They provide a service that no other station provides in our community. Please do not take any steps that would remove K-LOVE from the airwaves.

Thank you,  
David Reeves
